Annual mgmt. fee: A: 1.00%
Reference index: 3-Month EURIBOR
Unit type: Accumulation

S&P Fund Management Rating

Invesco Capital Shield 90 (EUR) Fund

Source: Standard & Poor's, as at 31/03/2009.

Any reference to a ranking, a rating or an award provides no guarantee for future performance results and is not constant over time.

The Invesco Capital Shield 90 (EUR) Fund aims to provide an adequate total return through investment in a diversified portfolio of short-term debt securities and exposure to equity and bond markets through the use of derivatives.

It was the intention of the Investment Advisor to preserve at least 90% of the highest ever NAV at any time during the life of the fund. The Investment Advisor has taken every reasonable effort to preserve this floor but neither the Investment Advisor, nor any other Invesco entity, guaranteed the floor.

On 2 February 2009, the fund's NAV fell below the floor of EUR 11.04 and remains below that level. This decline is due to extraordinary conditions in global markets which have disrupted the ability of market participants to buy and sell debt instruments readily. This decrease in market liquidity has caused prices to fall, including those of the floating rate notes which are held by the fund.

A comment on the current portfolio

The table below lists the current statistics of the portfolio as of 31 March 2009.

Invesco Capital Shield 90 (EUR) Fund

Portfolio	As of 31/03/2009	Credit Ratings	As of 31/03/2009

A Shares, data as at 31 March 2009, unless otherwise stated.

Fund NAV development

The highest NAV per share of the Invesco Capital Shield 90 (EUR) Fund was EUR12.27, registered on 16 July 2007. A NAV of EUR11.04 represents 90% of the highest ever NAV. The NAV as of 2 February 2009 declined to EUR10.95, which did not meet the Investment Advisor's target to preserve at least 90% of the highest ever NAV during the life of the fund.

Important Information

This document is for investors as well as their advisors' and distributors' update purposes only, is not a promotional material and does not constitute an offer. For this purpose in Luxembourg, Austria, Germany, the Netherlands, Spain, France, Belgium, Italy, Switzerland, Finland, Greece, Norway, Sweden and Portugal. Data as at 31 March 2009, unless otherwise stated.

The value of investments and income will fluctuate (this may partly be the result of exchange rate fluctuations) and investors may not get back the amount invested. The fund invests in derivatives. Therefore, the net asset value of the fund may, at times, be highly volatile. The reference index of the Invesco Capital Shield 90 (EUR) Fund was chosen to reflect the long-term target of the fund which is to achieve an attractive total return. Please note, however, that this index is not an indicator of the fund's volatility which is expected to be higher due to the exposure to bond and equity markets.

Investors should note that due to the net asset value falling in excess of 10% sufficient income needs to be generated by the debt securities component to enable a significant participation in the markets to be regained (which may take some time). Transactions in futures carry a high degree of risk as the amount of the initial margin is small relative to the value of the futures contract so that transactions are "leveraged" or "geared". A relatively small market movement may have a proportionately larger impact which may work for or against the investor.

The Invesco Capital Shield 90 (EUR) Fund is a sub-fund of the Invesco Funds SICAV, organized in Luxembourg and authorized by the Commission de Surveillance du Secteur Financier.

Please refer to the latest Full Prospectus, the relevant Simplified Prospectus, any local Addendum, as well as the latest annual and semi-annual reports for more information on the fund.
